IF YOU LOVE PASTA...

You should know about RP's Pasta Company

RP's Pasta Company was formed in 1995 by a passionate man with a love for food. Founder Peter Robertson grew his love for fresh pasta into a successful business by distributing his pasta throughout the Midwest and beyond.

RP's Pasta Company is a vibrant, progressive company meeting the needs of our specialty gourmet retailers and wholesalers. We continue to expand while maintaining the highest quality standards for each customer.

**No other pasta producer
in our area can offer
the quality or freshness
that we provide.**

**RP's Pasta Company,
The ultimate choice in FRESH pasta!**

FRESH ROLLED PASTA

Rolled means the pasta dough is rolled flat and cut into strips of different widths to produce different shapes. Our fresh rolled pasta goes through a full kneading process. This produces lively and delicate pasta with a true "*al dente*" or "*to the tooth*." Our rolled pasta has a starchier surface which gives the sauce a good surface to cling to. Available in Fettuccine, Linguini, Angel Hair, Spaghettini, Ravioli Sheets & Lasagna Sheets.

FRESH EXTRUDED PASTA

Extruded means the pasta dough is pushed through a die to give it a specific shape. Our fresh extruded pasta has a firm texture like dry pasta while keeping the flavor and resilience of fresh pasta.

Shapes include Campanelli, Orzo, Rotini, Rigatoni, Mostaccioli, Fusilli, Bucatini, Ditalini & Anellini.

FILLED GOURMET PASTA

We quick freeze our filled pasta to preserve the quality of the filling.

Our goal is to keep the focus on the filling. RP's uses only quality ingredients to make all of our fillings right here in the factory, no pre-made fillings. Shapes include our Tortelloni, Ravioli & Raviolini.
